**Third PSFA Roundtable Discussion with Broadband Vendors**

**Date/Time:** August 8, 2016 between 10:00 A.M. and 3:00 P.M.  
**Location:** UNM Science&Math Rotunda

The New Mexico Public School Facilities Authority (PSFA) invites all the vendors who offer (or are interested in offering) E-Rate eligible Category1 broadband services to public schools, to participate in the review of the first year of Internet Access and WAN upgrades. The upgrades were developed with assistance from the Broadband Deficiencies Correction Program (BDCP) for public schools in NM, with funding approved by the Public School Capital Outlay Council.

The program is being developed by the PSFA with the support of EducationSuperHighway fiber team and in collaboration with the NM Department of Information Technology and with the NM Public Education Department.

The PSFA would like to ask Broadband Vendors for input regarding fiber and other upgrades during the next E-rate application cycle and discuss the potential opportunities created by this program.

This is your opportunity to contribute to the broadband upgrades strategy and help determine an accurate picture of the E-Rate eligible services available throughout the State, as well as helping us identify and/or overcome barriers to deploying more advanced broadband services.

Thank you for your support.

Best Regards,
