

Category 2 BDCP Upgrades Workflow

3/25/2016

All public schools equipment upgrades eligible for current Category 2 E-rate funding budgets may receive PSCOC funding. The PSCOC awards have to preserve the equitable distribution of state funds and will help public schools leverage the available Category 2 E-rate funds for needed upgrades.

PSCOC funding will not exceed the non-discounted portion for the available Category 2 budget for the E-rate eligible items.

The non-discounted portion will be split between schools and PSCOC based on the capital outlay formula:
