  - c. **Correspondence** – None.
2. **Public Comment** – Mr. Abbey had audience members and staff introduce themselves.
3. **PSCOC Financial Plan**
  - a. **PSCOC Financial Plan**

Ms. Irion reviewed the changes to the financial plan since the last meeting: standards-based awards were awarded for \$13.2M, systems-based awards were awarded for \$14.7M. Lease assistance increased \$705K based upon Council action during the 9/19/18 meeting to award based upon the prior year funding amount of \$736.25 per MEM and adjusted for the 80/120 counts; the adjusted amount reflected within the financial plan is \$15.7M. Farmington Country Club ES was awarded additional funding of \$1.6M, however it was split with the district 50/50 and results in an increase of \$804,740 to the state share. Gallup Thoreau ES was awarded \$13.6M and BDCP for Category 2 (Equipment) was awarded \$223,000; total awards since the last meeting were slightly over \$58.0M. The FY18 emergency reserve for contingency balance of approximately \$900K was added to the carry forward balance which was adjusted to \$43.2M. The SB-9 allocation increased \$407K per PED. Originally set at \$17.8M, it is now \$18.2M. Security Program awards, originally listed at \$10.0M (\$6.0M in HB306 and \$4.0M in SB236) was increased to the full \$16.0M allocation. Estimates for the awards scenarios have been projected in the out years. Projected ending balances are \$190.6M in FY19, \$127.1M in FY20, \$114.2M in FY21, \$136.0M in FY22 and \$178.6M in FY23. The PSCOC Fund Balance is \$254.2M following a September draw request of \$5.9M.

Ms. Carranco spoke of the AMS requested that changes be made to the financial plan to better identify the sources of funds; Ms. Irion to add identifiers to the PSCOC Financial Plan Definitions page for better clarification.

Mr. Abbey inquired as to the certifications for CID and the State Fire Marshal; Ms. Irion replied that they would come forward at the next PSCOC meeting. Mr. Abbey then asked about the status for Pre-K processes; Mr. Chamblin stated PSFA is currently working with PED and CYFD for data regarding enrollment across the state and information is to be presented to the Council in November. Mr. Abbey requested that the information be reviewed with LFC and LESC staff prior to presenting in November; Ms. Carranco requested she be included in the meeting.

**b. Recertification of SSTBs**

The certification is being updated to recognize the standards and systems-based awards that were awarded during the last Council meeting as well as any other projects and any additional amounts for projects. Currently, \$4.3M remains within SSTB14SB 0004. This certification will need to be updated again next month based upon the budget requests for CID and the State Fire Marshal as well as any other items that may come through.

**MOTION:** Ms. Carranco moved for Council to adopt the Resolution, Notification, and Certification amendment for reauthorization of unexpended bond proceeds as follows:

- SSTB18SB 0004 in the amount of \$77,708,527; to PSCOC awarded projects totaling \$77,708,527.

Ms. Fitzgerald seconded and the motion was unanimously approved.

**4. 2018-2019 Awards Cycle**

**a. 2018-2019 School Security Program Awards**

Upon reading the Subcommittee recommendation, Mr. Guillen stated that scenario 2 would assist more applicants. Ms. Cano then proceeded to review information listed within the executive summary while noting 288 applications were received from 47 school districts and state chartered charter schools in this first year of the security program. All applications were vetted and districts were contacted for additional clarification or information. As a result, 46 award recommendations were adjusted (reduced) for reasons including removing soft costs in order to avoid a double count, requests that were outside of the intended scope of the security system program, excessive costs for the work, reimbursement of previous expenses was not allowed and the campus had a previous or current standards-based or systems-based award. Ms. Cano also spoke of the evaluation of soft costs and how, upon further review, found that allowing 30% of the total project cost may be excessive for some security types. By using a methodology of varying softs cost per security system type (20% or 30%) and applying it to the MACC in lieu of a percentage of total cost resulted in a reduction in the total estimated project cost of all applications by \$6.6M. Ms. Cano reminded members that the program contained six discretionary security system types.

Per Mr. Abbey's request Ms. Cano presented scenario 2 in detail. Scenario 2 does not require offsets for HB306 and results in 60 awards under this appropriation. Offsets are required for SB239 and allows for 163 awards. Scenario 2 is the most flexible for districts and would allow

for 222 campuses to receive funding while fully expending the \$16.0M appropriation. Mr. Guillen noted that by funding the Las Cruces projects under the systems-based program, more security projects were able to be funded. Ms. Gudgel inquired as to how the items recommended by staff aligned with the security assessments; specifically asking if there were things listed that were not included in the security assessments. Mr. Chamblin replied that in a number of cases the application did not completely align with the assessment and that it was rare that all items requested in the application were included in the third party assessment. Mr. Chamblin reiterated that the intent of the assessments was to identify major facility security risks and campus hazards but did not get into every specific detail; Ms. Gudgel stressed that the assessment and the request should tie together. Ms. Carranco acknowledged this should be something to work towards for future cycles and noted in this first year assessments were done from many vendors which made it difficult to tie together. Ms. Fitzgerald offered her thanks and appreciation to the PSFA staff for all of their work on the security program.

Mr. Abbey inquired as to the request for a local match reduction for Carrizozo; Ms. Cano replied that they were the only district that had requested a local match reduction and acknowledged that the district had recently informed staff that they would be rejecting their systems-based award as they do not have their local funds. The district did submit a statement of financial position which does indicate they have very limited funds to accommodate the work and by funding their security application under HB306 it would allow Council some flexibility to waive some of the local match. Staff has made the recommendation to approve their waiver while asking for a minimal local match of \$50,000 and waiving the remaining local match under the HB306 appropriation. Mr. Abbey suggested the award for Carrizozo be contingent upon review of their finances by the Awards Subcommittee; members agreed.

Mr. Abbey suggested that staff invite comments from the districts on how to improve the program next year; Ms. Carranco expanded the request and suggested that a “lessons learned” document be completed and that staff provide a summary to the Council on the processes and experiences. Mr. Abbey requested this be added to the December agenda.

**MOTION:** Make awards under the school security program to the districts and schools set out in Scenario 2 of the attached award spreadsheet on pages 12-21 of this item, for the purposes and in the amounts specified, including any special conditions contained in the award language for each school (see attached). Reimbursement of previous expenses are ineligible for funding under this program. Each allocation is intended to fully complete the project, phase, or specified purpose. As this was a Subcommittee recommendation a second was not needed and the motion was unanimously approved.

**b. 2018-2019 Small Project (Systems-Based) Capital Outlay Awards – Deferred and Amended Applications**

Ms. Cano reminded members that at the last meeting six Las Cruces awards had been deferred pending the outcome of the school security applications. Based upon action just taken by the Council, these awards were not funded under the security program and are being reconsidered under the systems-based program. Ms. Gudgel expressed concern with allowing programs to apply for either a systems-based or security award and fitting them in where we want them to free up funds for other programs. Ms. Gudgel stated she had voted against the systems-based

award during the Subcommittee meeting and would likely do so again in order to remain consistent with funding security projects under the security program.

Regarding Floyd Municipal Schools, Ms. Cano stated that the \$19,000 offset presented at the last PSCOC meeting should have been \$12,000 and resulted in a \$7,000 increase in the state match and a decrease in the local match of the same amount.

**Motion 1:** Ms. Carranco moved for approval of the staff recommendation to amend the systems-based capital outlay award to Floyd Municipal Schools as set out on line 17 of the attached award spreadsheet to correct an error in offsets applied which affect the net state/local match. Mr. Burciaga seconded and the motion was unanimously approved with Ms. Gudgel not in attendance for the vote.

**Motion 2:** Awards Subcommittee recommendation to make capital outlay project awards under the systems-based capital outlay process to the districts set out on lines 20-25 of the attached award spreadsheet, for the purposes and in the amounts specified, including any special conditions contained in the award language for each school (see attached). Each allocation is intended to fully complete the project, phase, or specified purpose. Awards are subject to the 2018-2019 Additional Conditions approved by the Council on September 19, 2018. As this was a Subcommittee recommendation a second was not needed and the motion was approved 7 to 1 with Ms. Gudgel voting in the negative.

**c. PSCOC Work Plan/Timeline** (*informational*)

Based on member response, the December PSCOC meeting has been rescheduled for December 18<sup>th</sup>.

**5. Out-of-Cycle Funding/Additional Funding/Emergency Funding/Award Language Requests**

**a. Albuquerque – P14-002 – Arroyo del Oso – Rescind Award**

No additional discussion. District representatives, Mr. Tim Berry and Mr. Jeremy Jerge, participated via telephone.

**MOTION:** Rescind the balance of the 2013-2014 standards-based award to the Albuquerque Public Schools for Arroyo Del Oso ES. Any unused portion of the offset applied to the award shall be added to the district's total offset balance as reported by the Capital Outlay Bureau of PED. As this was a Subcommittee recommendation a second was not needed and the motion was approved 7 to 1 with Ms. Carranco absent from the vote.

**6. Other Business**

**a. FY18 PSFA Annual Report** (*informational*)

Mr. Chamblin referred to the annual report handout and noted it was a working draft; additional edits and corrections will be made and a final version will be presented to Council for approval in November. Mr. Abbey requested that a page be added regarding the two decades of progress the program has had regarding building conditions. A chart is to be included showing all money going in and spent by the state and what the outcomes have been based on those investments. Information on districts that were in extremely poor condition and how there have been dramatic changes over time should also be included.

**b. Update on Changes to the Adequacy Standards** *(informational)*

Mr. Chamblin reviewed the meeting material and stated information was being gathered from the schools and community on the existing standards as well as ideas about potential updates. PSFA is currently analyzing the feedback which will be presented to the Council at the November meeting. Staff is seeking to balance the additional costs of proposed changes with potential cost reducing changes. Three main topics have emerged from the workshops and staff analysis; IT – the current adequacy standards do not have a lot of inclusion for IT spaces beyond a computer lab. Security - the existing standards refer to security in only a couple of ways (i.e.: fencing) and is a topic that can be better addressed. Special Education - the D Level special education suite described in the existing standards has received a fair amount of input and is an area that is an evolving topic and is a top priority.

**c. Discussion on Charter School Processes and Procedures** *(informational)*

Ms. Carranco provided an overview of what had been discussed during the AMS Subcommittee including utilization of space at charter schools, identifying classroom space, timeline for changing the process, standardized lease requirement templates and charter school maintenance. Ms. Carranco pointed out there is a very aggressive timeline staff will be using to go out and work with the charter schools; staff will be reviewing the use of charter school spaces while also conducting forums and discussions to determine what classroom space is and how they should be looked at for charter schools. Ms. Carranco praised the PSFA staff and acknowledged that though the timeline was aggressive, staff was successful in doing the same thing with security and was confident the same could be done here.

**7. Informational**

**a. Broadband Deficiencies Correction Program Status Report**

No significant changes.

**b. PSCOC Project Status Report**

No significant changes.

**c. Master Plan Project Status Report**

Ms. Casias stated districts identified in red do not have an FMP; staff will reach out to those districts that have not applied and offer assistance.

**d. Lease Assistance Status Report**

Ms. Irion noted that the award letters will include a paragraph regarding procedural changes related to eligible classroom space.

**e. Maintenance Program Status Report**

Mr. Tillotson stated that districts are seeing the benefit of preventive maintenance versus reactive maintenance. The highest FMAR rating is a 98%. Mr. Abbey clarified that security awards were conditional on having a current PM Plan; Mr. Tillotson agreed.

**f. FY18 & FY19 Budget Projections and Personnel Update**

No significant changes.

**8. Consideration for Approval to Adjourn to Executive Session Pursuant to the Open Meetings Act NMSA 1978, 10-15-1 (H)(2) for the purposes of discussing PSFA Director Performance Evaluation**

**MOTION:** Ms. Carranco moved for Council approval to adjourn to executive session pursuant to the Open Meetings Act NMSA 1978, 10-15-1 (H)(2) for the purposes of discussing PSFA Director Performance Evaluation.

Roll Call:

Ms. Carranco – Yes	Mr. Burciaga – Yes	Mr. Peralta – Yes
Mr. Ortiz – Yes	Mr. McMurray – Absent	Ms. Gudgel – Yes
Ms. Fitzgerald – Yes	Mr. Guillen – Yes	Mr. Abbey – Yes

Adjourned to executive session at 10:30 a.m.

**9. Reconvene to Open Session**

**MOTION:** Mr. Guillen moved for Council approval to reconvene from executive session pursuant to the Open Meetings Act NMSA 1978, 10-15-1 (H)(2) for the stated purpose of discussing the performance evaluation of the PSFA Director. Only the above referenced item was discussed and no votes were taken.

Roll Call:

Ms. Carranco – Yes	Mr. Burciaga – Yes	Mr. Peralta – Yes
Mr. Ortiz – Yes	Mr. McMurray – Absent	Ms. Gudgel – Yes
Ms. Fitzgerald – Yes	Mr. Guillen – Yes	Mr. Abbey – Yes

Reconvened from executive session at 10:50 a.m.

No action was taken in executive session and only the scoring criteria, timeline and performance evaluation for the PSFA Director were discussed. The evaluation will occur at the next PSCOC meeting.

**10. Next PSCOC Meeting – Proposed for November 8, 2018**

**11. Adjourn -** There being no further business to come before the Council, Mr. Burciaga moved to adjourn the meeting. Ms. Gudgel seconded and the motion was unanimously approved. Meeting adjourned at 10:52 A.M.

***“Industry Based Education for a New Economy”***

October 22, 2018

Dear Public School Capital Outlay Council,

On behalf of Central Consolidated School District, I would like to express our sincerest appreciation and gratitude for the PSCOC's permission to re-purpose the former Grace B. Wilson Elementary School building for our district's new early college programs and initiatives.

As a brief update, I would like to share the progress that we have made since re-opening the building. Grace B. Wilson Elementary School has been transformed into Bond Wilson Technical Center (BWTC), which has become a bold, new district initiative to revamp the high school experience around students' career interests. We have created a maker 3D printing engineering lab, an extensive construction trades lab, and are in the process of creating a new culinary arts kitchen and welding lab to meet the needs of an ever changing local economy. Innovative dual credit offerings combined with industry experiences and new elective courses (Drones, Employability, and Aerospace) have resulted in our students being ready to enter both the workforce and the post-secondary setting with a set of competitive new skills. BWTC acquired over \$175,000 in grant funding and a large technology donation from Hewlett-Packard worth over 1.4 million dollars. We have dispersed this new technology throughout BWTC and our district.

Bond Wilson Technical Center now offers students in grades 10<sup>th</sup> - 12<sup>th</sup> six new guided post-secondary pathways in lieu of their traditional high school based elective offerings. The goal of each pathway is for students to complete a university certificate consisting of 30 to 44 credits. The pathways include: Computer Science, Pre Engineering, Welding, Construction, Industrial Maintenance Operations, and Culinary Arts. Students complete all of their regular core classes at their home high school, and then attend Bond Wilson Technical Center for their higher education classes and coursework. This model allows our students to still be part of their home high school and maintain the ability to participate in extracurricular activities like high school clubs and athletics.

In collaboration with Navajo Technical University and our local industry partners include Raytheon, Arizona Public Service, Navajo Transitional Energy Company, North American Coal- Bisti Fuels, Teach for America, and Hewlett-Packard. Our hope is that with robust industry input and community collaboration, we will meet the future workforce needs of our ever-changing local economy, while also providing authentic postsecondary “place-based” learning opportunities for our students.

Thank you for supporting this initiative to provide innovative opportunities for the students of New Mexico. We strive to create a new generation of globally competitive, skilled students who will support the evolving economic needs of both the Navajo Nation and our surrounding communities.

Sincerely,

Milo McMinn  
Coordinator of Bond Wilson Technical Center

#### FINANCIAL PLAN ASSUMPTIONS and SUMMARY:

- Line 7: Operating Reversions recognized \$200K; adjusted per re-certification of bonds and fund balance as of 6/30/18. FY2019 Operational Budget is \$5,171,800. Re-certification of bonds (SSTB18SB 0004) transferred \$3,171,800 and not the full \$5,171,800. This enables the fund balance in 94300 to be utilized for operational expenditures and leaves \$2,000,000 in SSTB18SB 0004 for project use.
- Line 8: Advance Repayments \$440,910 due in FY2021; advance repayment schedule had FY2020 for Mesa Vista Ojo Caliente ES.
- Line 19: FY2019 Operating Budget increased \$100K. Originally \$5.1M in Financial Plan. \$5,171,800 is actual amount adjusted to \$5.2M due to rounding.
- Line 20: CID/SFMO Inspections decreased \$80,000 for CID revised inspection amount \$250,000 from \$330,000. SFMO Inspections decreased \$80,000 for SFMO revised inspection amount \$80,000 from \$160,000. Amount of revisions carried to out-years.
- Projected Fund Balance as of November 8, 2018 is \$253,835,264.89. Draw requests are submitted by the 10th of each month.

# PSCOC Financial Plan Definitions

## Sources

**SSTB (Revenue Budgeted July) & SSTB (Revenue Budgeted January).** Supplemental Severance Tax Bonds (SSTBs) are issued and sold by the New Mexico State Board of Finance (BOF) upon receiving a Resolution authorized by the PSCOC and signed by the chair certifying the need to sell bonds pursuant to the Public School Capital Outlay Act ("Act"). The Public School Facilities Authority (PSFA) budgets amounts into the Public School Capital Outlay Fund ("Fund"). Amounts reported for prior fiscal years are actuals and are denoted by an " \* ". Amounts reported for the current fiscal year and out-years are the most current, available capacity estimates prepared bi-annually by the BOF. Bonds sold in June are budgeted in July and bonds sold in December are budgeted in January.

**Project Reversions, Operating Reversions, and Advance Repayments.** Project reversions are identified by PSFA staff through ongoing project financial audits. SSTB proceeds that have been previously authorized by PSCOC for particular projects are identified by PSFA staff for reversion when the proceeds are no longer needed for the particular project for which they were authorized.

Operating reversions are unexpended amounts from PSFA's annual operating budget. These amounts are reverted to the Fund annually via an operating transfer.

Advance repayments are amounts remitted to PSFA and deposited into the Fund by school districts for PSCOC approved advances of funds for school districts local share amounts on PSCOC projects. Amounts reported for prior fiscal years are actuals.

**Long Term Bonds.** This includes Severance Tax Bonds (STB) appropriated to the Fund. In FY 2017 and 2018 the Legislature appropriated \$81.4 million in STB proceeds to the Fund for expenditure in FY 2018 - 2022. Any unexpended or unencumbered balance remaining at the end of FY 2022 will revert to the severance tax bonding fund.

## Uses: Public School Capital Outlay Act

**Capital Improvements Act (SB-9), Lease Payment Assistance Awards, Master Plan Assistance Awards, PSFA Operating Budget, Construction Industries Division (CID) Inspections, and State Fire Marshal** are uses subject to funding availability and permitted pursuant to the Public School Capital Outlay Act and Capital Improvements Act.

**Capital Improvements Act (SB-9)** amounts are transferred to the Public Education Department (PED), which distributes funds to school districts pursuant to the Capital Improvements Acts. Amounts transferred to PED are calculated annually and administered by PED. Out-year estimates are based on previous amounts distributed to PED.

**CID Inspections and State Fire Marshal** are amounts PSCOC may approve annually for transfer from the Fund to the Regulation and Licensing Department for expedited inspection services by the Construction Industries Division and expedited permits and inspection of projects conducted by the State Fire Marshal Department at PSCOC funded project sites. CID and the State Fire Marshal requests budget authority from PSCOC each fiscal year. Out-year estimates are based on previous amounts distributed to CID and the State Fire Marshal.

**PSFA Operating Budget** are amounts that are approved annually by the Legislature for transfer from the Fund to the PSFA Operating Fund for administration and oversight of PSCOC projects and carrying out duties pursuant to the Public School Capital Outlay Act. Total annual expenditures from the fund for the core administrative functions, cannot not exceed 5% of the average annual grant assistance authorized from the PSCO Fund during the immediately preceding three fiscal years. And any unexpended or unencumbered balance remaining at the end of the fiscal year from the expenditures authorized in this subsection revert to the fund.

# PSCOC Financial Plan Definitions

**Lease Payment Assistance Awards** are amounts that may be approved annually for reimbursing school districts and charter schools for leasing K-12 facilities pursuant to the Section I. of the Public School Capital Outlay Act (22-24-4). PSCOC discretion is used to estimate the preliminary amount for lease assistance. The financial plan is updated based upon PSCOC action.

**Master Plan Assistance Awards** are amounts that may be approved annually for the state share of the cost of updating a school district or charter schools five year facility master plans. The financial plan includes an estimate for out-year amounts based upon previous award history. The financial plan is updated based upon PSCOC action.

**Project Closeouts** are projected amounts that may be reimbursed to the districts upon the completion of financial audits for previously awarded projects. In order to align the total project expenditures to adequacy with the MOU match percentages, amounts may be due to the district if the State share of the expenditures is less than the MOU State match percentage. During the transition from FIFO (pooled funds) to project-specific budgets, projects which had reached construction completion may not have been assigned a budget, and this line item will be used to make those reimbursements. PSFA anticipates the need for this line item allocation in FY15 and FY16. Project closeouts from FY17 and forward are budgeted within the project. There is no additional need in the out-years.

**Emergency Reserve for Contingencies** are projected amounts that may be used to fund the State share of a project that is above the original award amount. These amounts can occur due to cost overruns, change in scope or other identified changes presented to the PSCOC. The financial plan includes an estimate from PSFA staff and is discussed with subcommittees. The estimate may change based upon market conditions or PSCOC discretion.

## Uses: Legislative Appropriations

**Instructional Materials/Transportation Distribution, Pre-kindergarten Awards, Security Awards and Broadband Deficiencies Corrections Program** are uses subject to funding availability and appropriations made by the legislature.

**Instructional Materials/Transportation Distribution** are amounts appropriated from 52nd Legislature, 2016 2nd Special Session, Chapter 2, SB4 to reserve \$25.0 million in each fiscal year from 2018 through 2022 for appropriation by the legislature from the Public School Capital Outlay Fund. The appropriation may change each fiscal year and is adjusted in the financial plan based upon passed legislation.

**Pre-kindergarten Awards** are amounts reauthorized in Section 139 for the unexpended balance of the appropriation to the PED in Subsection 1 of Section 40 of Chapter 81 of laws 2016 to plan, design, renovate and construct public school pre-kindergarten classrooms statewide is appropriated to the PSFA contingent upon approval by the PSCOC for those purposes. Expenditure is extended through year 2021. The financial plan is estimates \$5.0 million in out-years to continue this program and was added per PSCOC direction.

**Security Awards** are amounts appropriated from 53rd Legislature, 2nd Session, 2018 Regular Session, HB306 appropriated for expenditure in fiscal years 2018 - 2022 from the PSCO fund to the PSFA to plan, design and install security systems and for repairs, renovation, or replacement of school security systems statewide, contingent upon the approval of the PSCOC \$6.0 million. SB239 was also included in this session. Up to \$10.0 million of the fund may be expended in each of fiscal years 2019 - 2022 for school security system project grants made in accordance with Section 22-24-4.7 NMSA 1978. The financial plan represents actuals for FY19 and out-years is based on PSCOC discretion and may be adjusted based upon applications received.

**Broadband Deficiencies Correction Program** are amounts from 51st Legislature, 2nd Session, 2014, SB159. Up to \$10.0 million may be expended each year for an education technology infrastructure deficiency corrections initiative. Provided that funding allocated pursuant to this section shall be expended within three years of its allocation. The financial plan includes estimates provided by PSFA staff. Estimates may change when awarded by the Federal e-Rate program. In such an event, the subcommittees and PSCOC are notified of the estimated change. The financial plan is adjusted based upon actual awards approved by the Federal e-Rate program.

## Project Awards Schedule

Amounts in the Schedule are the total state share phase award amounts grouped by award year and phase (Design & Construction). Design phases are indicated with the color purple; construction phase(s) are indicated with the color green. Uncertified phases are indicated in italics. Partially certified phases are indicated with italics and an asterisk (\*). Funding needs are estimated by phase and across fiscal years based on project schedules. Phase award amounts and schedules are estimates prepared and updated by PSFA on a monthly basis.

**Projected Balance as of November 8, 2018** **\$253,835,264.89**

**I. PSCOC Meeting Date(s):** November 8, 2018

**II. Item Title:** Certification of SSTBs

**III. Name of Presenter(s):** Denise A. Irion, CFO

**IV. Proposed Motion:**

Adopt the Certification and Resolution to sell SSTBs subject to review by DFA Designee Carranco and Chair Abbey verifying the amounts.

**V. Executive Summary:**

The December 2018 SSTB Certification is presented for PSCOC review. The estimated SSTB proceeds generated through the December 2018 sale is \$176,300,000. Thus, the SSTB Certification includes the remaining FY 2018-2019 projected awards plus Q1 and Q2 projected awards for FY 2019-2020. The June 2019 sale is estimated to be only \$5,550,000 per Board of Finance.

- SSTB FY2018-2019 Fall Certification Worksheet is attached for your review along with the respective resolution.
- IT Infrastructure Awards (BDCP) are included for FY2018-2019 and FY2019-2020.
- SB239 is included in the certification for School Security.
- SB4 is included in the certification for Instructional Materials and Transportation Distribution.
- Total FY2018-2019 SSTB Fall Certification is \$185,745,148.

- I. PSCOC Meeting Date(s):** November 8, 2018
- II. Item Title:** FY 2019-2020 Budget Appropriation Request Revision
- III. Name of Presenter(s):** Denise A. Irion, CFO
- IV. Potential Motion:**

**AMS Subcommittee Recommendation:** to approve PSFA request to increase FY 2019-2020 Appropriation Request in the amount of \$175,000 for the 200 Category Personal Services and Benefits.

**Revised Potential Motion:** To approve PSFA request to increase FY 2019-2020 Appropriation Request in the amount of \$274,000 for the 200 Category Personal Services and Benefits.

**V. Executive Summary:**

PSFA is requesting an increase to the FY 2019-2020 Appropriation Request in the amount of \$274,000 for the 200 Category Personal Services and Benefits. The original FY 2019-2020 Appropriation Request is flat to FY 2018-2019 at \$5,171,800. The increased appropriation amount would be \$5,445,800.

After verifying the salaries and benefits amounts, it was discovered that the estimate presented to AMS Subcommittee was incorrect. The following adjustments have been made:

Description	Previous Amount	Corrected Amount	Difference
Group Insurance Premium	\$300,740	\$318,505	\$ 17,765
Retirement Contributions	\$510,305	\$522,608	\$ 12,303
Worker's Comp	\$ 0	\$ 500	\$ 500
GSD Worker's Comp	\$ 0	\$ 2,800	\$ 2,800
Unemployment Comp Premium	\$ 0	\$ 3,600	\$ 3,600
Employee Liability Insurance Premium	\$ 0	\$ 6,100	\$ 6,100
Retiree Healthcare	\$ 6,152	\$ 61,520	\$ 55,360
		<b>Total</b>	<b>\$ 98,428</b>

Currently, PSFA has 8.0 FTE vacant positions. Of these vacant positions, PSFA plans to fill 6.0 FTE positions, and to keep 2.0 FTE positions unfilled.

Vacancy savings for the following unfilled positions is 4.1%:

00052861	Facilities Database Manager – Planning & Design
00052862	IT Business Process Analyst – IT

During the current fiscal year (FY 2018-2019), PSFA plans to fill:

00052890	Central Coordinator – Field
00052665	Central Coordinator – Field

00052759	Facility Analyst – Planning & Design
00052645	Regional Manager I – Field
00053050	CCE Specialist – Maintenance
00052823	Human Resources & Training Manager - Admin

Although the Facilities Database Manager is currently projected as an unfilled position, PSFA may need to fill this position or reclassify depending on agency needs. The budget anticipates all positions to be filled for the full 2096 work hours in FY 2019-2020, however unanticipated turnover may contribute to the vacancy savings rate, allowing the position to be filled if deemed necessary.

There are 2.0 Student Intern positions classified as Temp (0.5 FTE each) which are solely funded through vacancy savings.

PSFA has a Statutory Operating Budget Limitation of 5.0% of the average annual grant assistance authorized from the fund during the three previous fiscal years. The flat Appropriation Request is 5.6% or \$600,000 over the statutory allowable budget of \$4.6M. The increased appropriation of \$5,445,800, if approved, will exceed the limitation by 5.8%, or \$800,000.

#### **Category Bar Transfer Option**

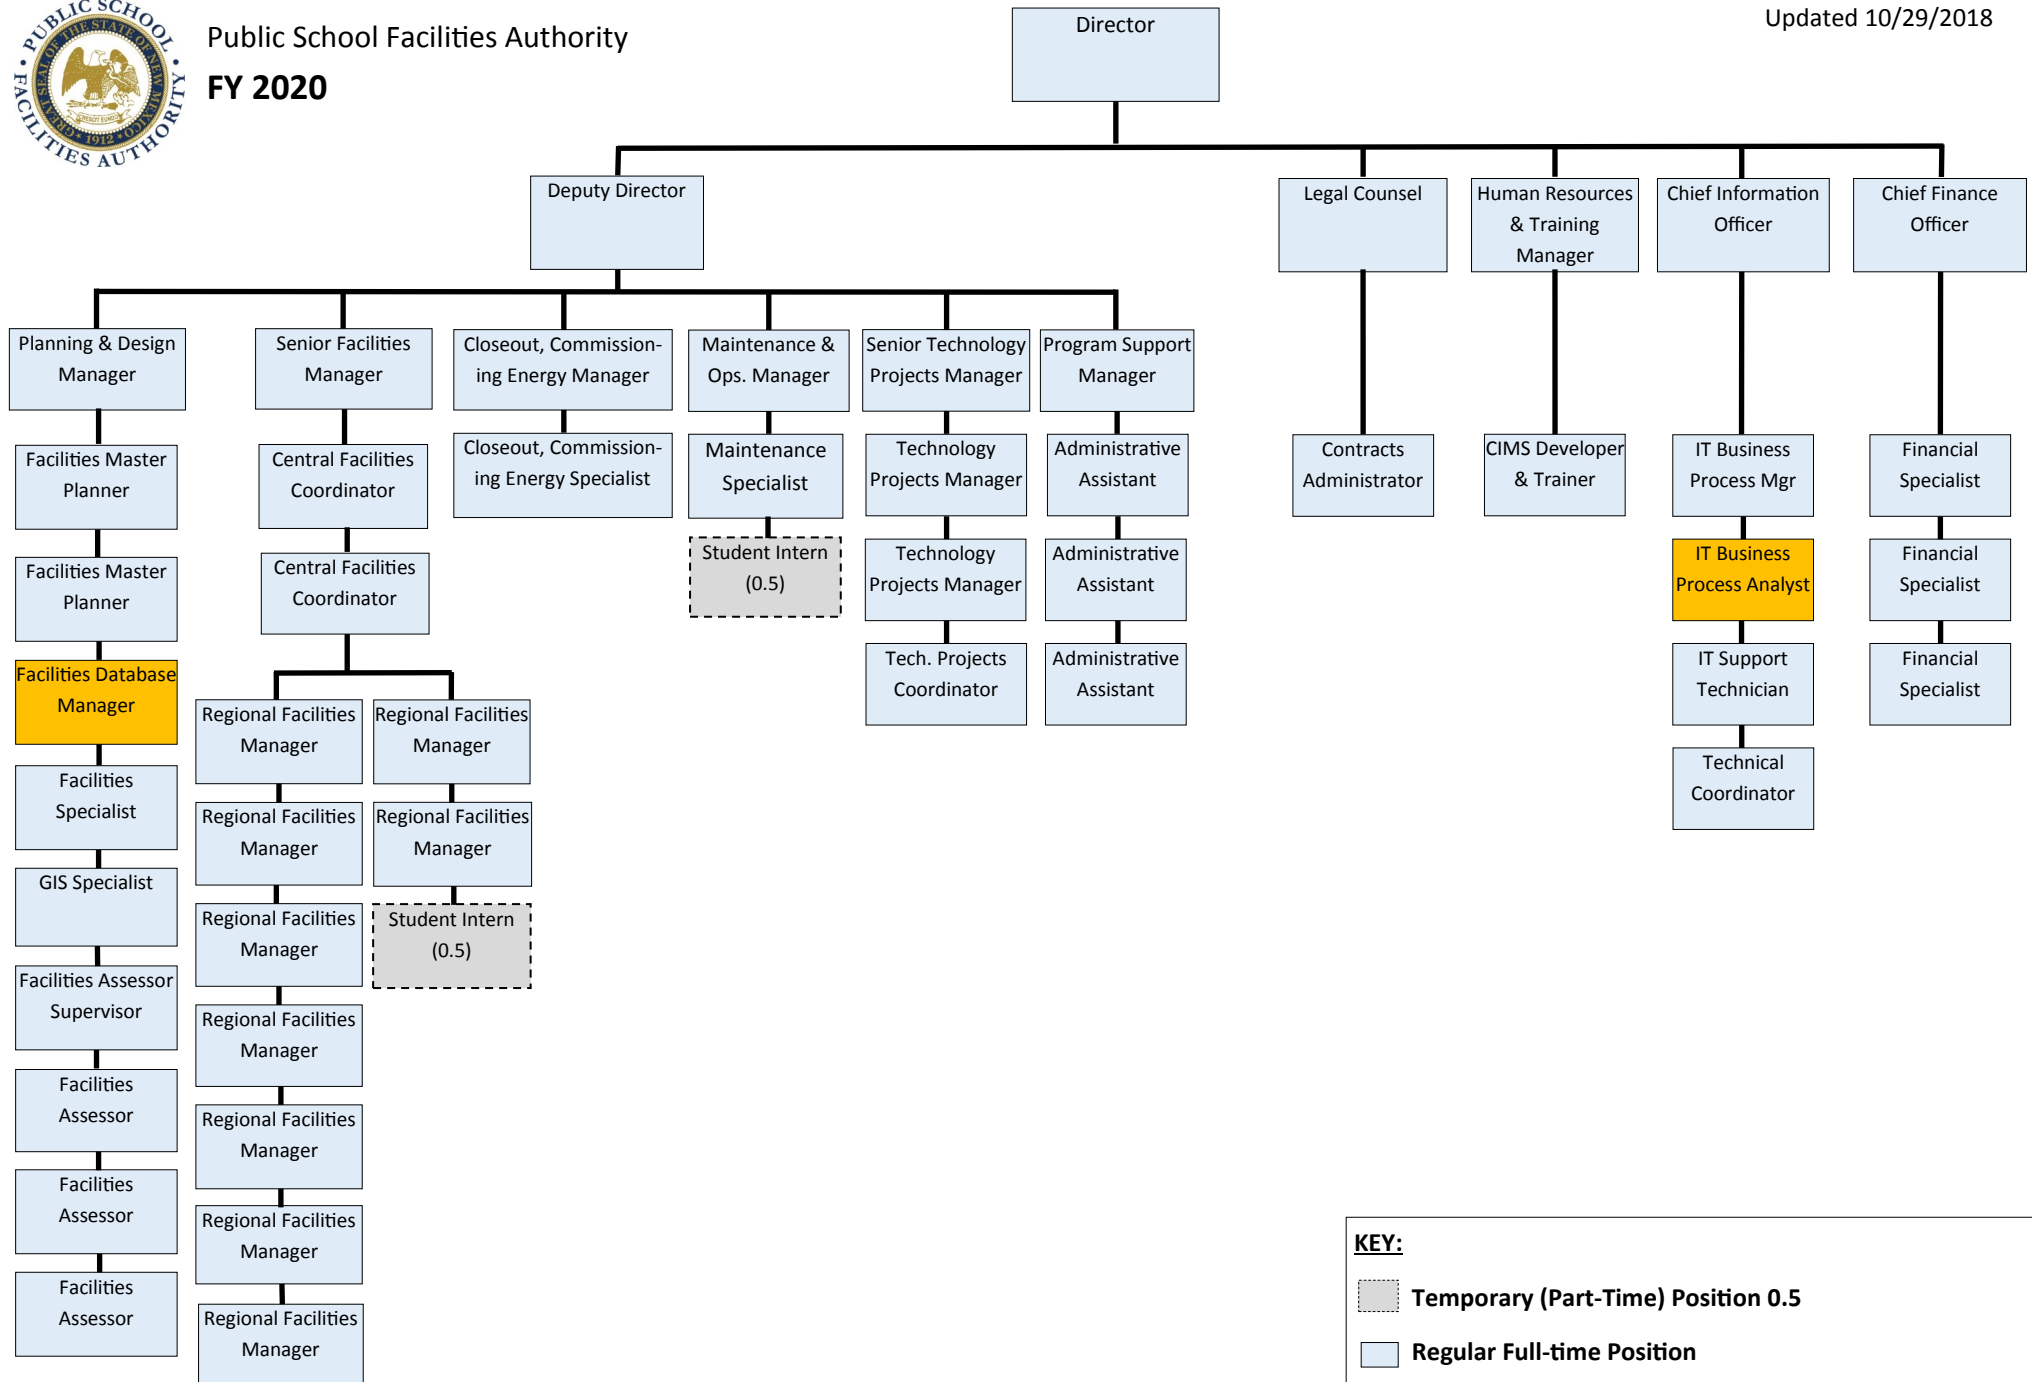

As an alternative, during FY 2019-2020 a category BAR transfer from the 400 Category Other to the 200 Category Personal Services and Benefits could occur if the e-Builder (construction information management system) software costs were approved to be expended from the capital fund (94700) in lieu of the operational fund (94300). FY 2019-2020 e-Builder software costs are estimated to be \$203,753. Prior to FY 2015-2016, e-Builder was expended from the capital fund (94700) as a project management expense.

Paragraph G of 22-24-4 NMSA 1978 states that “*Balances in the fund may be annually appropriated for the core administrative functions of the public school facilities authority pursuant to the Public School Capital Outlay Act, and, **in addition**, balances in the fund may be expended by the public school facilities authority, upon approval of the council, for **project management expenses** .....*” (emphasis added)

- III. **Name of Presenter(s):** Casandra Cano, Programs Support Manager;  
Denise Irion, CFO

IV. **Potential Motion:**

TBD.

V. **Executive Summary:**

As directed by the PSCOC, a review of the request for reduction of local share (waiver) from the Carrizozo Schools under the school security program was presented to the Awards Subcommittee.

***The award proposed in Scenario 2 is as follows:***

Total Estimated Project Cost	Local Match %	State Match %	Local Match \$	State Match \$	HB306 or SB239	Net Local Match	Net State Match
\$ 647,950	90%	10%	\$ 583,155	\$ 64,795	HB306	\$ 50,000	\$ 597,950

Attached is the statement of financial position form for Carrizozo.

- The form indicates that the projected cash at each fiscal year is approximately \$131k.
- The district is also planning on purchasing vehicles for the district which is not captured within the statement of financial position.
- In speaking with their bond advisor, Carrizozo has \$500k in voter authorized bonds yet to be sold. These bonds are planned to be sold by August 2020 (FY2021) dependent on market conditions. The next GO bond election is in 2021. Carrizozo can issue \$600k if authorized by the voters with any tax increases. The subsequent bond proceeds would occur over a 4 year period with bond sales of \$200 - \$300k increments. Any anticipated uses of these funds by the district are not reflected in the statement of financial position.
- The availability of the proceeds are very close to when the appropriation expenditure ends. Based upon the information received from the district, \$50k local match can be made by the district and they are eligible for the grant assistance provided by PSFA waiver eligibility criteria.

**III. Name of Presenter(s):** Larry P. Tillotson, Facilities Maintenance and Operations Manager

**IV. Executive Summary (Informational):**

The 2018-2019 awards were contingent on districts providing a current and/or updated Preventive Maintenance (PM) Plan and current Facility Master Plan (FMP). The following is a district summary of award type, contingencies prior to receiving funding and update/status of their plans:

- Several districts listed have updated their PM Plans recently including Cuba, Farmington, Gallup, Hagerman, Logan, Magdalena, and Tularosa.
- PSFA staff is providing consultative services to Questa and Espanola next week and working further with Taos, Quemado and Mora to advance their PM Plans.
- Cloudcroft is having maintenance and superintendent turnover and PSFA has pre-built their plan using the new best practice template to assist them in fast-tracking it.

- I. PSCOC Meeting Date(s):** November 8, 2018
- II. Item Title:** Broadband Deficiencies Correction Program - 2018 Category 2 (Equipment) Awards
- III. Name of Presenter(s):** Ovidiu Viorica – Broadband Program Manager

**IV. Potential Motions:**

Make Broadband Deficiencies Correction Program (BDCP) awards of actual E-rate-approved project amounts to provide the state match for application funding year 2018 for Category 2 (Equipment) upgrades to 7 districts/schools for a total of \$511,237 as listed in column L of the award spreadsheet of this agenda item. Each allocation is intended to fully complete the project, phase, or specified purpose.

**V. Executive Summary:**

In April, BDCP presented to the PSCOC 64 potential projects for Category 2 (Network Equipment) upgrades, for a total possible state match of approximately \$2 million.

These seven schools/districts completed their letters of application and have now received funding approval (FCDL) from the E-rate program, providing equipment upgrades of \$4,564,886 and impacting students in 182 educational facilities.

One school district listed (Moriarty) is being presented as both budgetary and final award, since they recently submitted their letter of application as well as recently received their FCDL funding approval.

- II. Item Title:** Broadband Deficiencies Correction Program – West-Central  
Broadband Infrastructure Consortium Procurement Support (REC5)
- III. Name of Presenter(s):** Ovidiu Viorica – Broadband Program Manager

**IV. Potential Motions:**

TBD.

**V. Executive Summary:**

Several districts in the West-Central region of New Mexico have a difficult time procuring quality and cost-effective broadband individually. The districts also duplicate many of the steps (scope development, procurement efforts, contracting, E-rate funding application, payments, etc.).

REC5 will serve as the procurement lead and fiscal agent, creating a larger business case that hopefully will attract more competition and result in broadband connections that are more cost-effective and of higher quality (see attachment for a description of tasks).

This consortium approach will also benefit other E-rate eligible entities (libraries), reduce or eliminate duplications, and create other opportunities for sharing resources and collaboration between the school participants.

The consortium approach is supported by the partner agencies PED and DoIT.

**III. Name of Presenter(s):** Ovidiu Viorica – Broadband Program Manager

**IV. Potential Motions:**

Make a Broadband Deficiencies Correction Program (BDCP) award Not To Exceed \$212,089.69 to renew the statewide agreement to provide E-rate assistance to all NM public schools, to the Broadband Deficiencies Correction Program and to the State E-rate coordinator in order to maximize the amount of federal funding New Mexico public schools receive from the E-rate program.

**V. Executive Summary:**

PSFA would like to request approval from the Council for funding to renew the state contract for E-rate Central, the consultant providing E-rate assistance to all the public schools who need it.

The E-rate support is essential for the success of the Broadband Deficiencies Correction Program.

The continuous specialized support through the application, E-rate review and often appeal processes over multiple years resulted in successful outcomes for many projects.

Recently three complex fiber upgrade projects (Farmington, Grants and the Jemez Consortium) received extensions for passed procedural deadlines, or reversals of previous denials, resulting in millions of dollars in savings to the state.

The current annual value for the agreement is \$212,089.69.

This renewal is supported by the partner agencies PED and DoIT.

# STATE OF NEW MEXICO

## PUBLIC SCHOOL CAPITAL OUTLAY COUNCIL

### PUBLIC SCHOOL FACILITIES AUTHORITY

## FY 2018 ANNUAL REPORT

## Letter from the Chair

### As delegated to the PSCOC Vice Chair

---

It is the foundational belief and goal of the Public School Capital Outlay Council (PSCOC) and the Public School Facilities Authority (PSFA) that a good, clean, safe, and well-designed learning environment for the children of New Mexico grades K-12 should be provided to all students!

The result of PSCOC and PSFA efforts to accomplish that goal since the beginning in FY 2005, is the enhancement of the basic education of our students. Investing in education infrastructure provides every student the opportunity to learn.

In the early years of the program, the statewide average FCI score for school buildings was higher than 60 percent, an indicator that many schools needed major repair, renovation or complete replacement. Today, the statewide average FCI score is less than 60 percent, with the majority of school deficiencies related to building systems or smaller renovation projects, a simple measure of the progress that has been made as a result of the capital investments made by districts and the state.

The number of public school projects has been reduced this past fiscal year due to the fiscal challenges of the last few years, but the PSCOC and PSFA have used this slowdown in projects as an opportunity to improve, enhance and address new challenges for our public schools throughout New Mexico.

Great strides have been accomplished with the Governor's Broadband Initiative, allowing the expansion of broadband connectivity statewide to our public schools. This past year alone, with a statewide investment of \$2 million and by accessing and utilizing E-rate funding, 64 projects worth \$13 million and affecting 446 schools are in process.

Additionally, we have taken on the task of reviewing, updating, and improving the Adequacy Standards for our public school projects, making them more defined and efficient by conducting statewide workshops with school districts and their leadership. Workshops were also conducted with architects and planners to gain insight on how our public schools can be designed more efficiently, with flexible learning environments to meet the needs of today's educational and learning requirements.

Most recently, the PSCOC directed the PSFA to develop security guidelines for all of our existing and future public schools. The primary goal is to develop a set of guidelines that identify best practices for safe and secure schools. We have partnered with local and statewide law enforcement, firefighters, and other first responders, to outline, prioritize and document what is needed in today's public schools design to ensure a more safe and secure learning environment for the students of New Mexico.

This work continues and is possible due to the commitment of each council member, the work and support of Governor Susana Martinez, the Legislature, the Public School Capital Outlay Oversight Task Force, and our school districts.

The PSCOC and PSFA remain committed to providing the best school facilities possible for all of our New Mexico students in grades K-12!

Respectfully,

Pat McMurray

### PUBLIC SCHOOL CAPITAL OUTLAY COUNCIL

The PSCOC has been directed by the New Mexico Legislature to manage the allocation of the Public School Capital Outlay Act funds to public school facilities statewide. Consisting of members representing executive and legislative branches, as well as representatives of school districts, the council oversees the various programs administered by the PSFA.

By statute, no later than December 15 of each year, the council shall prepare a report summarizing its activities during the previous fiscal year and submit it to the governor, Legislative Finance Committee (LFC), Legislative Education Study Committee (LESC), and Public Education Commission (PEC).

### PUBLIC SCHOOL FACILITIES AUTHORITY

The PSFA serves as staff to the PSCOC to assist districts and charter schools in the planning, construction, and maintenance of their facilities; to assist in training district facilities maintenance staff; and to implement systems and processes that establish adequate public school facilities throughout New Mexico via efficient and prudent use of funds.

# Public School Facilities Authority

Mission Statement: The PSFA, in partnership with New Mexico’s public schools, provides quality, sustainable and well-maintained school facilities for our students and educators.

## PSFA Organizational Chart

## About Us

### Administration

The Administration Group is responsible for managing overall agency operations, supporting and providing direction to all agency groups. The Administration Group includes Human Resources and Training. Human Resources staff oversee personnel services, benefits administration, and employee relations. Training staff serve internal and external customers on a range of topics and systems.

### Broadband

With the goal of increasing internet access & connectivity in New Mexico schools, the Broadband Technology Projects Group assists school information technology teams with project management and funding for fiber infrastructure to support fast and reliable internet service and in-the-building network equipment upgrades. The program has been successful in increasing bandwidth and keeping school networks current and dependable.

### Programs Support

The Programs Support Group administers the PSCOC capital funding programs, including funding for standards-based capital outlay, systems-based capital outlay, pre-kindergarten capital outlay, and school security funding. The group provides administrative support to all agency groups and to the PSCOC, coordinates the agency fleet, and serves as public records liaison.

### Contracts and Procurement

The Contracts and Procurement Group provides assistance and guidance to school districts regarding contracts and agreements for the procurement of tangible goods and general, professional, and construction services related to collaborative projects between PSFA and the school districts. This group also provides assistance in the development of project documents, reviews requests for proposals, requests for qualifications, and reviews and approves project change orders/modifications. When necessary, this group also assists in the resolution of contractual disputes between vendors and districts.

### Information Technology

The Information Technology Group is responsible for managing a multitude of systems that support school district facilities, needs and the agency's mission.

### Projects and Facilities

The Projects and Facilities Group partners with school districts to oversee award applications, budgeting, procurement, project management and project oversight. The Projects and Facilities Group is the main point of contact with school districts. Regional Facilities Managers live and work in the districts they serve, enabling them to provide valuable assistance in a wide variety of school-related matters, including facility standards and guidelines, as well as assistance identifying potential projects for state matching funding.

### Planning and Design

The Planning and Design Group provides master planning and educational specification assistance to school districts. This group also reviews projects in the design stage for state code compliance and compliance with the *PSCOC Adequacy Planning Guide*. The Planning and Design Group develops and maintains the adequacy standards, planning guidelines, and building standards. The group has a staff of facility assessors who assist in maintaining the statewide Facility Assessment Database (FAD) used to monitor facility conditions and rank school facility needs statewide.

### Facility Maintenance

The Facility Maintenance Group provides consultative services to assist school districts in establishing and optimizing their maintenance programs. This group focuses on preventive maintenance strategies to extend the life of the facilities and their systems. The goal is to assess local facility management challenges and develop real-world solutions for operational cost reduction while providing safe, healthy, and reliable environments in support of the state's educational process.

### Finance

The Finance Group is responsible for managing overall agency budgets, supporting all agency groups with financial transactions, and ensuring compliance with state laws, rules and protocols.

## FY 2018 Funding Criteria

---

The FY 2018 award cycle was announced with two opportunities for funding. The funding pool for the first round of applications was opened with the following criteria based on the 2017-2018 preliminary weighted New Mexico Condition Index (wNMCI) ranking:

- Eligibility for standards-based projects: All facilities with a wNMCI of 60 percent or greater.
- Eligibility for systems-based projects:
  - Feasibility/utilization/engineering evaluation report(s) are complete and demonstrate that: the post-project w/NMCI or Facilities Condition Index (FCI) would be one-third lower than pre-project w/NMCI or FCI, and the total project cost is 50 percent or less of the total facility replacement costs;
  - The district has its matching funds; and
  - The facility has a Facilities Maintenance Assessment Report (FMAR) score of 60 or better.

A second round of awards was initiated for systems-based projects; the funding pool for the second round of applications mirrored the first round of eligibility requirements, but was expanded to facilities within the top 200 of the statewide ranking.

## Other Council Actions

---

In addition to annual approvals of award cycle activities, the PSFA budget, out-of-cycle, pre-K, lease assistance, master plan assistance, and Broadband Deficiencies Correction Program awards, the PSCOC took action on a number of other items:

- September 2017 – Adopted changes to the Facilities Master Plan guideline.
- October 2017 – Allocated an amount not to exceed \$300,000 to reimburse the Construction Industries Division for estimated inspections and plan review expenses for FY 2018 for PSCOC-funded projects.
- January 2018 – Adopted improvements to the Facilities Assessment Database effective on the 2018-2019 award cycle.
- January 2018 – Allocated an amount not to exceed \$80,000 to reimburse the State Fire Marshal's Office for estimated plan review expenses and inspections for PSCOC-funded projects for the remainder of FY 2018.
- April 2018 – Revised the language in the memorandum of understanding for project awards regarding off-site utilities and infrastructure expenses.
- April 2018 – Adopted the Public School Facilities Authority Disposition of Capital Assets policy and procedures.
- May 2018 – Approved the 2018-2020 PSFA Strategic Plan.
- May 2018 – Adopted guidelines regarding PSFA/PSCOC participation in furniture, fixtures, and equipment.

## PSFA Strategic Plan

---

From December 2017 through May 2018, PSFA staff worked together to update the agency's strategic plan for 2018-2020. This strategic plan represents the collective vision of the staff at the PSFA, describing the intent of our of daily work. The plan is structured by focus areas, goals per focus area and action items associated with each goal. Five focus areas in the plan outline the most important guiding principles for our agency. The goals associated with each focus area define more specific strategies to direct our agency. The action items define specific tasks that PSFA staff can complete as part of their regular work. The strategic plan communicates the PSFA's vision and mission to school districts and communities. It is the framework on which our performance can be measured by school communities. We believe that our agency will be successful if we continually strive toward the identified goals. By implementing, tracking the progress of, and completing tasks, then repeating this process, we will ensure that the agency adapts to address the evolving needs of school communities in New Mexico. The strategic plan is a living document that will be revised as needed, based on input from school districts and our stakeholders.

## Cartwright Hall

- Total Amount: \$5,460,741
- State Match: \$0
- District Match: \$5,460,741
- Estimated Completion: June 2019

Construction is underway for the 14,713-gross-square-foot renovation of Cartwright Hall at the NM School for the Deaf (NMSD). Funding was provided through a legislative appropriation to plan, design, construct, renovate, equip, and furnish the existing facility as approved by the PSCOC. The facility consists of residential apartments for families of students attending the NMSD.

## Del Norte Elementary School

- Total Amount: \$2,100,000
- State Match: \$1,533,000
- District Match: \$567,000
- Estimated Completion: October 2020

Construction is underway for the 71,422-gross-square-foot replacement school on the existing Del Norte ES site for 576 students, grades K-5. Based on staff review of the Building Systems Analysis Report, the best value return on investment was determined to be replacement of the facilities as renovation costs were excessive. The existing school will remain occupied and will be demolished on completion of the new construction.

## Nob Hill Elementary School

- Total Amount: \$1,111,088
- State Match: \$1,111,008
- District Match: \$0
- Estimated Completion: July 2019

Construction is underway for the 51,248-gross-square-foot Nob Hill ES classroom wing addition for 192 students, grades pre-K-Kindergarten. The total award amount, as noted, represents the total state match for construction. Based on district readiness, construction preceded availability of funding in the financial plan. A small portion of renovation work will occur at Sierra Vista ES and include improvements to play areas, parking zones, bus loading area, and corrective site drainage.

## FY 2018 Emergency Awards (2 projects, \$275,000)

District	School	(Emergency) Project Type	Total Amount	Estimated Completion
Des Moines	Combined School	Leaky roof	\$125,000 (money was rescinded)	N/A
Santa Rosa	Anton Chico/Rita Marquez	Structural integrity	\$150,000	Q2-FY19

## FY 2018 Systems-Based Awards (10 projects, \$35.7 Million)

### Kirtland Elementary School Renovation

- Total Amount: \$3,453,673
- State Match: \$2,201,351
- District Match: \$1,252,322
- Estimated Completion: November 2018

This project was part of the first round of systems-based awards. The objective of this award is to replace the building systems that are reaching or have reached the end of their useful life; these systems included HVAC/ventilation, main power upgrades, lighting, and fire suppression in parts of the facility that currently do not have it.

## Los Niños Elementary School Renovation

- Total Amount: \$5,051,855
- State Match: \$2,086,021
- District Match: \$2,965,834
- Estimated Completion: Phase I September 2018; Phase II August 2019

This is a new program award that attempts to extend the life of the school facility 10-15 years by addressing major building systems. Systems for this award include renovation to restrooms, adding a chiller to the existing HVAC system, new lighting, site drainage and parking, new windows and fire suppression in areas of the facility that currently do not have it.

### Rio Grande Elementary School

- Total Amount: \$260,878
- State Match: \$156,527
- District Match: \$104,351
- Estimated Completion: September 2019

This project is currently under construction as part of an existing PSCOC project (see page 9) to rebuild Rio Grande ES. The classroom is adjacent to pre-K classrooms for the developmentally disabled and is designed to promote collaboration, as well as create an early childhood "neighborhood" within the facility. The wing also houses kindergarten and age-appropriate support services.

## School Security Projects

Two pieces of legislation that passed during the 2018 legislative session appropriated funding from the Public School Capital Outlay Fund to plan, design and install security systems in public schools. In response to the legislation, the PSCOC directed the PSFA to create a new security projects funding program.

To formulate a relevant program, the PSFA began researching national best practices for improving school security. In addition, staff made site visits to school districts throughout New Mexico in March and April to develop a better understanding of this issue. Staff learned what security strategies are relevant, effective, and feasible. From February

through May, staff formulated a *Security Guidelines* document and posted it on the agency website for use by any school district considering implementing school security projects. The guidelines document helped organize the discussion of the security issue with a suggested prioritization of site, building interior and exterior project types, and focus areas.

Concurrent with the site visits, the PSFA conducted a series of statewide school security workshops. These workshops were intended to bring neighboring school districts together to discuss this issue with representatives from local, county and state law enforcement, fire departments, Homeland Security,

security experts and others. Workshops were held in Artesia, Santa Rosa, Albuquerque, Deming, Gallup, and Española. The workshops were well-attended by each of the groups invited, with attendance between 40 and 100 people per meeting. Participants completed a written survey and were allowed to voice their views during an open comment period. The top five most concerning threats, from most to least concerning, were identified as active shooter, student mental health, bullying, unauthorized, access and domestic and custody issues. The top five most important security features, from most

to least important, were increased crisis training, better access control onto campus, secure vestibules, interior doors, and improved security systems. With feedback from the workshops, information gathered during the site visits, and research of national practices, the PSCOC identified 27 project types that would be eligible for funding during the first year of the school security projects program. This condensed list of project types represents the most effective, relevant, and prudent measures to direct state funding participation to schools statewide. In anticipation of a high

volume of applications for the limited available funding, applicant schools will be ranked based on a uniform set of measurable factors, with state funding participation prioritized for schools that have the fewest measurable security features already in place.

School security will continue to be a critical issue. The PSFA is integrating new processes into the authority's existing programs to ensure security is addressed at all phases, from planning and design, through construction to operations and maintenance.

## **Adequacy Standards (Measurement) and the *Adequacy Planning Guide* (Design)**

The Statewide Adequacy Standards (Adequacy Standards), New Mexico Administrative Code (NMAC) section 6.27.30, define the minimum requirements for all public school buildings and grounds. These standards are used to evaluate existing school facilities to identify minimum space and performance attributes needed to support educational and technology programs and curricula, defined and justified by the Public Education Department primary and secondary standards for excellence. The Adequacy Standards define the minimum net square footage requirements for a limited set of educational spaces within a school building, but do not include every space a school may need for its particular educational programs.

A companion document, the *New Mexico Public School Adequacy Planning Guide* (APG), was developed to clarify the standards and to provide assistance through references and "best practice" examples to complement the adopted Adequacy Standards. The APG is incorporated by reference to the Adequacy Standards and is intended to be used by districts and designers as a guide during the programming and design of new and renovated facilities. The APG contains information for school facilities regarding function, long-term operations, maintenance, sustainability, and site selection, typically exceeding the minimum requirements of the Adequacy Standards. The "Maximum Allowable Gross Square Footage per Student" table in "Appendix A" of the APG calculates the limit of state funding participation, based on a square foot per student amount.

Using the APG as the guide, new school facilities or major renovations should be designed to meet or exceed the minimum requirements in the Adequacy

Standards. The square footage of the minimum requirements outlined by the Adequacy Standards differs from the maximum allowable gross square footage (GSF) outlined in the APG. The difference between these low and high numbers is the design range that can accommodate all of the necessary building support spaces as well as additional spaces that may be needed for the particular educational program of the school.

A school district is not required to build to the maximum allowable GSF. Deviations from this amount, above or below, are allowed with specific exceptions. School districts may choose to build below adequacy based on their educational delivery, with a written request for exemption and acknowledgment that the spaces smaller than the minimum requirements, as identified in the letter, will not be considered below adequacy (space deficiencies) when measured during future assessments by PSFA staff. School districts may also exceed the maximum allowable GSF per student area but must wholly fund the excess area through a locally funded initiative in addition to contributing the required local share to the project.

The Adequacy Standards are used to measure minimum educational space and environmental deficiencies of school facilities, such as general education classrooms, science classrooms, physical education space, room temperatures and lighting. By measuring educational and facility deficiencies with the same standards, schools can be ranked according to the quantity and value of their deficiencies. This statewide ranking is used to determine potential PSCOC funding. Schools with the highest needs (most deficiencies) ascend to the top of the ranking and are prioritized for funding under the standards-based program.

## Facility Planning

**Annual Facilities Condition Index (FCI)\* for All New Mexico Schools - FY 2013 - FY 2018**

\*FCI applies to brick and mortar facility conditions only.

Prior to running the 2018 FCI calculations, PSCOC applied a straight-line degradation for systems aging to better align with industry standards. In addition, systems beyond their expected life had an increased weight factor applied. This allows the PSCOC to identify and better focus on systems that need to be replaced.

**Estimated Funds Required to Maintain the Current FCI - FY 2018 - FY 2023**

\*wNMCI = FCI + the facility's ability to support educational functions.

## Progress Since 2005: Improving Facilities, Replacing Building Systems

The Public School Capital Outlay Council (PSCOC) awarded the first standards-based project in fiscal year 2005. Over the past thirteen years, in order to ensure that all New Mexico students have quality, equitable learning spaces, the state has invested approximately \$2.6 billion into replacing and renovating school buildings throughout the state.

The ongoing condition of schools is tracked by the PSCOC and PSFA using the Facilities Assessment Database (FAD), a repository of facility information related to the age and condition of 29 key building systems. Each building on a school campus contains up to 29 building systems including: foundation, lighting, flooring, doors, windows, heating & cooling, roof and sidewalks. These systems are assigned an anticipated lifespan based on industry standard assumptions: 12 years for flooring, 30 years for windows and doors, 100 years for foundations. Though a building system may be identified as "beyond expected life" in the FAD, that system may still be functional and in good condition, such as flooring that has been cleaned, waxed and well-maintained by the district every year. Well-maintained building systems often exceed their expected lifespan.

Additionally, weight factors are added to the cost of certain building systems and space deficiencies. For example, if a failing building system poses a potential risk to the life, health, and safety of the students or staff, the value of that building system receives a weight factor multiplier of 3. If a building system deficiency needs to be corrected to mitigate additional damage to the facility, such as a leaking roof, that deficient system receives a weight factor multiplier of 2. Building systems within expected life and functioning normally, receive a reducing weight factor multiplier of 0.25. In this manner, schools with failing building systems rise more quickly in the PSCOC statewide ranking of schools.

The FAD also stores information related to educational space deficiencies, measured against the minimum requirements in the Adequacy Standards. The cost to correct building system and educational space deficiencies is the basis of the weighted New Mexico Condition Index (wNMCI):

$$\text{wNMCI} = \frac{\text{Cost of Building System Repairs} + \text{Cost to Correct Educational Space Deficiencies}}{\text{Replacement Value of the Building}}$$

Using the wNMCI value, all public schools are ranked, prioritizing those schools with the most deficiencies. Each year, the PSCOC produces a statewide ranking of every school to prioritize state funding participation to those schools with the greatest needs.

In 2005, 145 school facilities had a wNMCI score of 60% or higher (higher wNMCI scores indicate poor facility conditions). In 2018, only 8 facilities have a wNMCI of 60% or higher. Typically, when a school has a wNMCI of 60% or higher, the school is either replaced or a major renovation project is needed. A lower number of schools requiring renovation or replacement is the result of almost two decades of

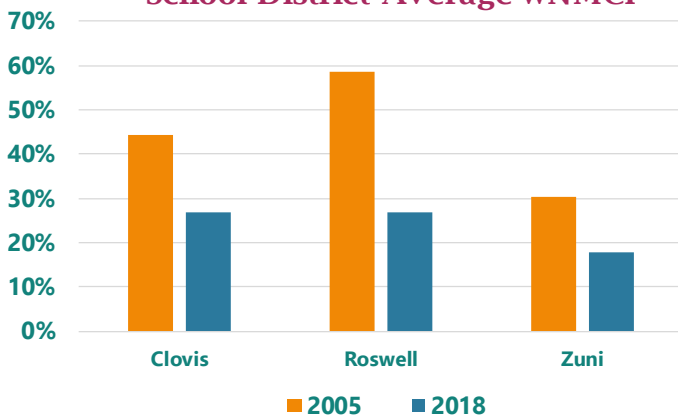

progress made by the PSCOC continuously striving toward equitable educational facilities.

A sample of district average wNMCI scores illustrates this progress:

In 2016, recognizing the continued need for capital investment, the PSCOC developed the systems funding program to help school districts invest in their facilities in a more targeted way. The systems funding program is intended to extend the life of existing school facilities by replacing select building systems, renovating certain spaces, and demolishing underutilized space. The systems program will also ensure that the statewide average wNMCI can be maintained at a designated, consistent level in the years to come, providing assurance to the dollars that have been invested.

In addition, the PSCOC emphasizes effective facility maintenance so that school districts can also provide assurance to the investment that has been made since 2005. Better maintenance of school facilities helps to prolong the life of major building systems, ensuring that the investments in capital projects realize a full return on every dollar. The Facilities Maintenance Assessment Report (FMAR) is a measure of school district maintenance performance. This measure illustrates the results of improved efforts by school districts throughout the state to better maintain

## BDCP

### Partnering with New Mexico Schools

In FY 2018, the Broadband Deficiencies Correction Program (BDCP) team continued to partner with schools and districts across the state for improved data connectivity, a mission-critical utility for education facilities.

Once a temporary program, Senate Bill 64 removed the five-year sunset of the Education Technology Infrastructure Program (more commonly known as BDCP), allowing the PSCOC to continue to provide assistance to public schools for broadband and technology infrastructure upgrades. This support, including funding, helps schools to leverage close to 90 cents in federal funding for every dollar spent on needed infrastructure work.

### FY 2018 Projects: General Overview

The BDCP helped schools develop over 39 projects across the state in FY 2018, with a total cost of approximately \$30 million. By taking advantage of federal and state dollars for the eligible work, the average cost to the schools is around 8 percent of that total. The upgrades encompass over 200 school facilities and will benefit over 50 percent of New Mexico students. The PSFA BDCP team continues to work with schools to develop and update tools and processes that simplify and encourage participation.

### Available Bandwidth Continues to Increase

The average connection speed available to New Mexico students continues to increase. This makes it possible to use the latest technology-based educational tools.

Beyond the immediate connectivity needs, public schools and other organizations will continue to face the challenge of keeping up with the steadily increasing demand, making the need for coordination, sharing of resources, and optimization a very high priority.

FIMS Proficiency Usage - FY 2013 - FY 2018

School district FIMS usage of the software modules Maintenance Direct and Preventive Maintenance Direct has improved from 2015 and both are 1.87, respectively while Utility Direct use is 1.79, a decrease from FY 2017.

District Preventive Maintenance (PM) as Percent of Total Maintenance Expenditures - FY 2013 - FY 2018

School district investments in preventive maintenance as a percent of total maintenance expenditures are now 20.8 percent, an increase of 0.9 percentage points from FY 2017.

## Maintenance Matters

Everyone has heard them: "Pay me now or pay me later." "An ounce of prevention is worth a pound of cure." "Work smarter, not harder." "It's not wise to put off to tomorrow what you can get done today." While these statements are true when it comes to maintaining school facilities, it is easier said than done.

**Facilities Matter:** No one can argue the important role that facilities management has on schools. Whether facilities are new or old, providing a safe, healthy, and comfortable learning environment is necessary to the success of students, teachers, and staff. Proactive maintenance methods in every public school protects the investment made by the state and districts, ensuring that all building systems operate to their full life cycle and reduce operational costs throughout the system life.

For years, educational institutions in New Mexico, and nationwide, have been faced with fiscal limitations. All too often, schools must choose between funding staff and funding proper facility maintenance on important systems. Implementation of an effective preventive maintenance program takes effort, time, and money, but the return on investment is more than worthwhile. When preventive maintenance is not a priority, schools run into deferred maintenance issues. Delaying maintenance needs and capital projects until the time and budgets are right can create greater long-term challenges, with schools needing more money for reactive maintenance than would have been required to keep up with preventive maintenance.

**Solutions:** While there is not a one-size-fits-all solution to successfully managing facilities, a flexible and adaptive support infrastructure is being created to assist New Mexico public schools. This infrastructure includes preventive maintenance planning, a solid computerized maintenance management software solution, Facility Information Management System (FIMS), and a facilities assessment and scoring tool to determine opportunities for improvement, Facility Maintenance Assessment & Reporting tool (FMAR). The benefits of operating an effective preventive maintenance program include the potential of reducing the rate

of reactive and emergency work by 50 percent to 60 percent and reducing an average cost per work order by 28 percent to 39 percent.

**The Good News:** New Mexico public schools are doing more preventive maintenance today than ever before. The FMAR indicates that for the first time ever, the statewide performance rating is above the recommended 70% satisfactory benchmark, which indicates that more districts are recognizing the benefits of a proactive preventive maintenance program. With efficient planning supported by more comprehensive facility data, schools are performing better maintenance, reducing costs and improving efficiencies.

**How the agency did it:** For the past 10 years, the PSFA and its partners in public schools have created best practices in preventive maintenance planning, FIMS performance measures and the FMAR to define and drive performance to a higher level. These measures and tools provide data to assist schools in making better informed decisions regarding maintenance and capital programs.

The PSFA looks forward to ongoing collaboration with school partners to ensure that maintenance programs succeed and the educational environment in facilities continues to improve. Agency programs and systems will continue evolving to provide more analytical capabilities and a deeper understanding of the benefits of good facility maintenance.

Dear Ms. Casias:

The Public Regulation Commission, is requesting pursuant to 2-24-4(J) NMSA 1978 that PSCOC approve and initial expenditure to PRC of \$80,000 for inspections and plan reviews in FY19.

The request is based on projections from inspections and review of plans for PSFA by State Fire Marshals Office from FY18 activities and based on FY19 proposed PSCOC projects.

Reimbursement is for building inspections with regard to fire protection installations of newly constructed public schools.

The services our office will provide are for fire protection inspections related to:

1. Sprinkler systems,
2. Fire alarms,
3. Fire suppression,
4. Hoods,
5. And plan reviews.

The New Mexico Public School Facilities Authority recognized 6 school districts, and District Superintendents & Board Members recognized their own personnel with the 13<sup>th</sup> Annual Ben Lujan Maintenance Achievement Awards presented in Albuquerque during the CES Facility Managers Training Workshop at a luncheon ceremony on Monday October 22, 2018.

The 2018 keynote speaker, Nina Carranco, Principal Budget & Policy Analyst, Department of Finance and Administration and Chair of the Administration, Maintenance and Standards Subcommittee along with PSFA Director, Mr. Jonathan Chamblin, presented the awards.

Awards were given/presented in the following categories:

- **Highest Achievers** – Districts who demonstrate continuous and sustained maintenance performance, based on the District FMAR score averages. Districts had to inform PSFA of their intention to participate in this category in advance, have a current Preventive Maintenance (PM) Plan on file and be active Facility Information Management System (FIMS) users.
- **Individual and Team Awards** – District recognition to Maintenance and Operation staff as nominated by their peers and/or Superintendent or School Board.
- **Plant Manager of the Year Award** – Presented to an individual demonstrating a history of management performance, supporting safe, quality, educational environments as managed through maintenance & operations and construction services.

A listing of the 2018 Ben Lujan Maintenance Achievements Awards is attached.

**Congratulations to the following 13<sup>th</sup> Annual Ben Lujan Maintenance Achievement Award recipients. The following New Mexico School Districts have executed efficient and reliable facilities maintenance and custodial programs with support from district leadership through continued dedication and motivation in support of quality educational environments.**

PSFA Presents Facility  
Information to Charter School  
Administrators

# Eligible Square Footage

## **22-24-4 (l)(6)(b):**

- “Classroom facilities” or “classroom space” includes the space needed, as determined by the minimum required under the statewide adequacy standards, for the direct administration of school activities
- The following areas are defined as classrooms (eligible spaces):
  - General classrooms
  - Science classrooms
  - Art classrooms
  - Music classrooms
  - Special Education classrooms
  - Career education classroom in MS or HS
  - Physical education classroom (unless waived by PED)
  - Performing Arts – if the educational program is focused on dance

## Utilization of Spaces

- Utilization for all schools is calculated by verifying the percentage of time per day a space is used for educational purposes
- Utilization rates for traditional schools
  - 85 – 100% for elementary schools
  - 80 – 95% for middle and high schools
- Utilization is also verified by the number of FTE and FTE assignments to the spaces

## Lease Documents

PSFA will work with charter schools to improve lease documents to benefit all parties

- Lease expirations
- Written notification of intent to continue
- Inclusion of all exhibits
- Execution of amendments by all parties
- Improve review process of lease purchase agreements, including PED/PSFA coordination, verification of E-occupancy

PSFA is working to develop standardized leases

## Application for Lease Assistance

PSFA is developing a web-based application for lease assistance:

- Streamline the process for applicants
- Improved quality control and consistency of key facility information
- Autofill facility information vetted and verified by the school and PSFA during the assessments
- Simplified process to upload required supporting documents

## Facility Needs and Long-Term Solutions

- Identify existing facility challenges
- Case studies of successful facility solutions to-date
- Formulate potential facility options for the future

## Next Steps

- PSFA assessments of all applicant charter schools
- Statewide workshops with charter schools, PED, and PEC
- PSFA development of:
  - On-line application for lease assistance
  - Standardized lease templates
  - On-line survey of charter schools to support the statewide workshops

The cell becomes shaded only after the start date in the schedule has passed and the phase is active. The regional manager adjusts the schedule each month. The report compares the current schedule to the schedule established in the MOU and assigns a color.

This indicates what percentage of this phase has been completed. This is updated monthly by the regional manager.

## Manager Report

The Phase II construction work is ongoing. Construction is behind schedule due to negotiations with the Santa Clara pueblo and offsite water line improvements.

The regional manager uses the Manager Report to highlight unique conditions of the project.

Number of months remaining until completion of the phase. This indicates that construction will be completed 27 months from TODAY.

The number of months remaining is based upon the RMs revised schedule. If the revised schedule varies from the baseline (indicated by the yellow or red color coding), the number of months displayed indicates the revised schedule completion date.

All of the amounts indicated in the financial portion represent ONLY the state share

II. **Item Title:** Maintenance Program Status Report

III. **Name of Presenter(s):** Larry P. Tillotson, Maintenance & Operations Manager

IV. **Executive Summary (Informational):**

The New Mexico PSCOC Maintenance Program Status Report is a quarterly statewide maintenance performance metric developed from statute required and PSFA managed maintenance performance data. It identifies NM School Districts status regarding their maintenance program in the following 4 major functions (definitions followed by status):

- 1) **Maintenance Plan** – A statute driven, written plan on how districts will operate maintenance management programs at their respective schools, inclusive of goals, staffing plans & other good business practices and methods towards good stewardship of quality and safe facilities and proper preservation of building systems and components.
- 2) **Facility Information Management System (FIMS)** – A software tool to assist school districts manage their maintenance programs reactive, preventive maintenance and utility collection activities, through inventories, improved processes and reporting, currently provided by Dude Solutions, to better manage their overall assets and maintenance operations processes.
- 3) **Facility Maintenance Assessment Report (F6 FMAR)** – Facility Maintenance Assessments based on industry building management standards to evaluate how well a district site is being maintained and the capital investment protected.
- 4) **Meaningful Maintenance Metrics (M<sup>3</sup>)** – A monthly data driven FIMS report intended to communicate maintenance and operations performance activities to the district's staff and leadership in an effort to make better informed decisions regarding facilities management.

### **Current New Mexico Maintenance Program Status:**

- 1) Maintenance Plan status:** 49.45% of school districts have a current maintenance plan. 50.55% are in need of annual updates. This metric has declined from September 2018 (50.55%). PSFA staff has implemented measures to improve this performance metric through the F6 FMAR and quarterly notifications.
- 2) Facility Information Management System status** (quarterly metric) 2018: Percent of districts using the products to manage districts maintenance programs: **Maintenance Direct:** 71.43%. **Preventive Maintenance Direct:** 73.63%. **Utility Direct:** 64.84%. No changes
- 3) FMAR Status** (Goal 70% Satisfactory Performance): See attached F6 FMAR Summary.
  - a. F6 FMAR status:** Statewide average: 70.966% Satisfactory performance. 3<sup>rd</sup> Qtr. 2018
  - b. F6 FMAR Completion Rate:** 33.54% (263 of 784 completed).
  - c. FMAR Cumulative Performance Summary as of September 30, 2018:** See attached
- 4) Meaningful Maintenance Metrics (M<sup>3</sup>):** 12.1% (11) of NM districts are verified users of the report to communicate maintenance performance through formal KPI's. 2 district in training.

Facility conditions are important to a quality educational environment (lighting, HVAC, fire safety etc.).

PSFA measures NM school facility conditions using the FMAR as a measure to determine the effectiveness of NM school district maintenance programs which is inclusive of PM Planning, FIMS use and a 22 category facility assessment. The chart identifies current performance ratings of NM schools with 70% as a quality and recommended minimum threshold.

### NM Public Schools FMAR F6 / Maintenance Performance

**Report Summary:** This report reflects data beginning May 1, 2017 to September 30, 2018 during the FMAR F6 Cycle. 263 school site FMARs have been completed covering 67 NM school districts. Of the published FMAR assessments, the statewide maintenance performance average is 70.996% reflecting Satisfactory performance where 70% is recommended as a minimum a slight decline in performance from last quarter. 57% of school districts are performing above the threshold with 6% driving Outstanding performance ratings. Districts performing above Satisfactory (minimum) are recognized as having quality educational environments and dedicated to maintaining facility conditions with good potential for building systems to meet their useful life expectancy.

* FMAR Average Scores are calculated using data from 2011 to present															

**Preventive Maintenance (PM) Plan:** A statute driven (annually updated) written plan on how the district manages Maintenance and Operations from year to year. Ratings are as follows:

- CURRENT:** Districts have updated their plan within the last 12 months (30 day grace period). **Plan Ratings:** *Poor, Marginal, Satisfactory, Good* and Outstanding
- NOT UPDATED:** Districts have not updated their PM Plan components = Poor Performance rating.

**Facility Information Management System (FIMS)** A Computerized Maintenance Management System provided by Dude Solutions inclusive of the following modules:

**Maintenance Direct (MD):** a module in FIMS/Dude Solutions used to process reactive work orders at the district. *(see rating scale below)*. **Key Performance Indicators include:**

- Work Order Backlog (goal: <25%):** The backlog percentage rate identifies the number of open work orders vs. the number of closed work orders.
- Transaction Rate (goal >100%):** The percent rate of costs recorded for completed work orders on transactions, labor and contract costs.

- Preventive Maintenance Direct (MD):** a module in FIMS/Dude Solutions used to process all preventive maintenance work orders at the district. *(see rating scale below)*
  - PM Cost Ratio (goal: >20%):** The percentage of Preventive Maintenance costs vs. total costs expended on all work orders.
  - PM Completion Rate (goal: > 90%):** The percentage of closed Preventive Maintenance (PM) work orders vs. the number of total generated PM work orders.
- Utility Direct (UD):** a module in FIMS/Dude Solutions used to collect & monitor utility billing data towards development of an energy savings program. *(see rating scale below)*

**FMAR: Facility Maintenance Assessment Report (FMAR):** an tool used to evaluate NM school facilities conditions / appearance and determine and verify the implementation level of the maintenance management program. The final FMAR (F6) report combines a **Facility Maintenance Assessment (FMA)** in 22 important maintenance system categories, **Maintenance Planning** status and performance (statute driven), and the **State provided FIMS Performance** (as measured through industry standard KPI's and statute driven). The results are used to establish a benchmark for the individual schools/districts maintenance programs in an effort towards continuous improvements and implementation of cost effective maintenance strategies.

**Meaningful Maintenance Metrics (M<sup>3</sup>):** a monthly maintenance report developed from data directly out of the districts FIMS / Dude Solutions account used to communicate monthly activities through KPI's in the district's maintenance programs to school leaders. KPI's include: Vandalism, Work Order Completion, Backlog , PM Completion Rate, PM Cost Ratio, Maintenance cost per student and Square Ft.

**PM Schedules Running:** The number of PM schedules running in the districts FIMS Preventive Maintenance Direct account.

**PM Schedule Types:** The number of PM schedule types the district is using for their PM work orders.

**I. PSCOC Meeting Date(s):** November 8, 2018

**II. Item Title:** FY19 Budget Projections & Personnel Update

**III. Name of Presenter(s):** Lacey Sawyer, Human Resources & Training Manager

**IV. Executive Summary (Informational):**

## **VIII. Election of the PSCOC Chair and Vice-Chair \***

\* Denotes potential action by the PSCOC

I. **PSCOC Meeting Date(s):** November 8, 2018

II. **Item Title:** Election of Chair and Vice-Chair

III. **Name of Presenter(s):** N/A

IV. **Potential Motion:**

Council approval of \_\_\_\_\_ to serve as Chair, and \_\_\_\_\_ to serve as Vice-Chair of the Public School Capital Outlay Council for Fiscal Years 2018-2019 and 2019-2020.

V. **Executive Summary:**

**6.27.1.9 COUNCIL ORGANIZATION**

A majority of the membership of the council constitutes a quorum.

B. The council will elect a chair and vice-chair. The chair and vice-chair will serve two-year terms. If an interim vacancy results in the office of chair or vice-chair, the council will select an officer or officers to serve in the interim.

C. The chair will preside at council meetings and will have powers and duties including, but not limited to, the following:

- (1) to rule on matters of parliamentary procedure;
- (2) to execute documents approved by the council on behalf of the council;
- (3) to coordinate with council staff; and
- (4) to appoint subcommittees of the council as the chair deems necessary and advisable to enable the council to conduct its business in an efficient manner. Subcommittees will be composed of fewer than a quorum of the council membership and will make recommendations to the council on issues and matters as directed by the chair. Subcommittees will act in an advisory capacity to the council. Subcommittees may not take any final or binding action.

D. The vice-chair will serve in the absence of the chair.

E. If a council member is unable to attend a council meeting, the member may provide a written designation to the chair authorizing a specified individual to act on behalf of the council member for the meeting.
